R insurgents are a result of the ongoing conflict in Burma. The situation has been complicated by the presence of various armed groups, many of whom are ethnic minorities. The armed conflict has been ongoing for decades, with both the central government and various ethnic groups fighting for greater autonomy or independence. The current conflict has escalated with the rise of the Rohingya crisis in 2016, which has drawn international attention and condemnation. The situation remains tense, with frequent clashes and human rights abuses reported on both sides.
