

“ It is my pleasure to welcome you to the Simeone Foundation Automotive Museum, selected as the “Museum of the Year” by the International Historic Motoring Awards.

Living organisms, fighting for survival, adapt to the demands of their environment. The strongest pass on their superior genes to future generations. In the competition between the species, the fittest indeed do survive.

The same is true with many inanimate objects. There are few illustrations of the effects of competition as dramatic, and beautiful, as the evolution of the racing sports car. This is the theme of our exhibition. Here you can learn how racing improves the breed. You can see the evolution of the race car as the result of seven decades of the “spirit of competition.”

To experience The Spirit of Competition come alive, join us for our bi-monthly Demo Days. Along with running the cars around our 3 acre back lot, I will give a lesson on the specs, history and provenance on each of the of the automobiles. Our philosophy is that it is not just the mechanics of the machine, or how fast it can go, but about where the car has been and what it has experienced. Each one has a story worthy of hearing.

I hope you enjoy this exhibition, find it educational, and will come back to visit us often.

”
