

REFLECT  
YOUR  
WORLD

## INTRODUCTION

### Reflect Your World.

Your world is one that defies definition. It's a world spilling over with images of every size. Images of stark contrast and vibrant color. Images that make the imagination do somersaults. Images that grab the eye and don't let go. Images that reflect who you are and what you stand for.

At Color Reflections, providing a full spectrum of digital imaging and traditional photographic services is a small part of a very big picture. As innovators in photographic reproduction services, we employ state-of-the-minute technologies, networked across platforms and across the continent, to create a whole new realm of imaging possibilities.

By integrating traditional methods with digital technologies, we've developed a reputation for providing your world's most life-like reproductions with uncompromising customer service. And in a world where images are everything, there's no room for anything less.

## SENDING FILES

We offer FTP services through our secure server. This allows you to send files easily with no maximum file size. We also use Hightail for sending large files. For more details, please contact your customer service representative or visit our website for instruction.

## DESIGN + RETOUCHING

Billed at an hourly rate, these services are over and above the included costs required to produce the job. System time includes image assembly, retouching, color manipulation and custom color blending and matching. Design time includes working from your concept through proof approval.

## SCANNING

Scanning is available on various equipment depending on the original and resolution required. We offer high-resolution drum scans, flatbed scans, and large format Cruse scans. This allows us to produce a high-resolution scan from your original as large as 36"x48". The Cruse scanner is a revolutionary piece of equipment unique to Color Reflections.

## MOUNTING + LAMINATING

We specialize in top quality, pressure sensitive & heat encapsulated lamination. Laminates range from 3 mil to 15 mil and are available in a variety of surfaces.

- Many substrates including; foamcore, gatorboard, sintra, plexiglass, masonite, styrene.
- All laminates have UV inhibitors to protect against fading.
- Contour cutting, easel backs, velcro, vinyl edging and magnetic stripping.
- Custom mounting and professional installation available.

## INSTALLATION

Let our Installation team handle your project from site inspections to installation. Color Reflections has the capability and experience to install your project with attention to detail, coordination, delivery, safety and workmanship that contributes to a successful project. We offer national retail project management and installation.

## FULFILLMENT

With decades of experience and a proven track record, Color Reflections is capable of handling the largest of national fulfillment projects. You can rest assured that each of your locations will receive their products on schedule and with careful attention to every detail that has been mutually developed for your project. As your product ships, you will receive email notification as confirmation.
