

Where Style
Meets Substance

KIMPTON HOTEL
PALOMAR
PHILADELPHIA

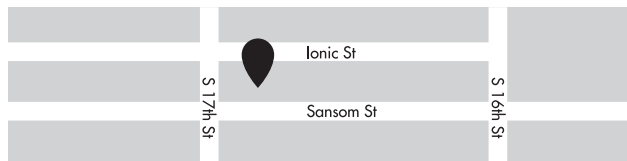

Elevated Events, Curated Experiences.

Unexpected luxuries and comforts that soar above the rest.

Old-school architecture and Art Deco-inspired décor go together like Hepburn and Tracy at Kimpton Hotel Palomar Philadelphia. This sophisticated retreat has all kinds of bragging rights: four-star rated, LEED certified, cityscape views, unapologetically sleek suites, and location right in Rittenhouse Square for easy access to the best of the city. An old soul with its vintage appeal, the hotel is also contemporary where it matters, with jetted spa tubs in select rooms and sustainable design among original architectural detailing. Styled for the fearless, guests are drawn to the diversity of boundary-treading interior design and artwork, thoughtfully meticulous execution, and an inviting spirit from our dedicated staff.

Once home to the American Institute of Architects, Kimpton Hotel Palomar Philadelphia comes with a high quotient of history and style—perfect for both leisure and business travel. Indulge in more than 6,000 square feet of newly redesigned space, all drenched in natural light and delicious, customizable dining options created by the talented Square 1682 culinary team. Your events from business meetings to social engagements are all covered. Square 1682's cuisine effortlessly blends fresh, regional ingredients with world flavors, and everything is designed for sampling and sharing, though skillfully mixed cocktails can be selfishly coveted.

At once intriguing, always refined, and cleverly witty, Kimpton Hotel Palomar Philadelphia expertly delivers an amalgamation of elevated events and curated experiences.
