

A wide-angle photograph of a bowling alley interior. The scene is captured from a high vantage point, looking down the length of the bowling lanes. The ceiling is a complex network of dark metal trusses and beams, with several large, round, yellow pendant lights hanging from it. The walls are a mix of white and dark wood paneling. In the foreground, a wooden bench and a bowling ball return rack filled with colorful balls (yellow, green, blue, red) are visible. The bowling lanes are lined up in the distance, with pins at the end. The overall atmosphere is modern and industrial.
