ART

The James Turrell Skyspace is a permanent installation opening this summer on Red Butte in Green Mountain Falls! *Red Over Blue* will be on view JUNE 21 — LABOR DAY

Skyspace by James Turrell / Red Butte

Green Box is thrilled to announce it will welcome a Skyspace installation to the town of Green Mountain Falls created by internationally-renowned contemporary light and space artist James Turrell. The first in Colorado and the first built into the side of a mountain, the James Turrell Skyspace will be dedicated with the support of the Historic Green Mountain Falls Foundation this summer. The piece joins an exclusive list of more than 85 Skyspaces the artist has designed and built throughout the world, including Argentina, Japan, Greece, Norway, and Australia.

Iconic American artist James Turrell (born 1943) is known for cultivating peaceful and powerful environmental works of art that focus on human perception. Heralded globally as one of the most significant artists of our time, for more than fifty years James Turrell has created eloquent, deceptively simple artworks that explore the complexity of light as a medium. Best known among Turrell's completed artworks are his Skyspaces—a combination of architecture, sculpture and atmosphere perfectly positioned in nature, with apertures in the ceiling open to the sky. These creative observatories—much like all of his work—are designed to be places of contemplative thought. Cosseted on a butte overlooking Gazebo Lake and bathed by the rustling of aspens, the James Turrell Skyspace for Green Mountain Falls will be a harmonious addition to the town—an extension of the landscape, preserved in its natural setting. The experience will begin with an inspirational journey via a new trailhead located in the center of town that will deliver hikers directly to the sheltered Skyspace in the hills above. As daylight gives way to evening's radiance, and the seasons advance, viewers will be enveloped in a one-of-a-kind kinetic light and color encounter—a sensory and contemplative experience unlike anywhere else in the world.

Green Box Recommends:
Art of the West
An exhibition at Kirkpatrick Bank: 102 N. Cascade Avenue,
Colorado Springs, CO 80903
Open to the public Monday - Friday (9 a.m. - 5 p.m.)

The American West has been inspiring artists from the time human beings began to inhabit the land. Artists from across the globe have found the west to be fertile ground for artistic expression. As a home or destination it has become the subject of some of the most famous art created in the United States. This exhibition sheds a light on the beauty and timelessness of the west, and how it continues to inspire even into our contemporary times.

American Ballet Theatre Company

SAT / JUNE 26 at 2 and 7 p.m.
Bear Crossing Studio

American Ballet Theatre is one of the great dance companies in the world and is internationally celebrated as a cultural institution dedicated to preserving and extending the great legacy of classical dancing. This summer, ABT will bring 12 of its professional dancers to Green Mountain Falls for a five-week residency, culminating in three can't-miss, captivating performances. Acclaimed choreographer Silas Farley will join ABT to create a new work to be performed by the Company.

Few ballet companies equal ABT for its combination of size, scope, and outreach. Recognized as a living national treasure since its founding in 1940, ABT is the only major cultural institution that annually tours the United States, performing for more than 300,000 people. For more than 81 years, the Company has appeared in 45 countries and has performed in all 50 states. ABT has recently enjoyed triumphant successes with engagements in Paris, Singapore, and Hong Kong. On April 27, 2006, by an act of Congress, American Ballet Theatre became America's National Ballet Company®.
